

# Problem Solving Using Python and R Lab

## Labsheet-14. Animated Data Visualization using R

**Name:P.Asha Belcilda**

**Roll no:225229104**

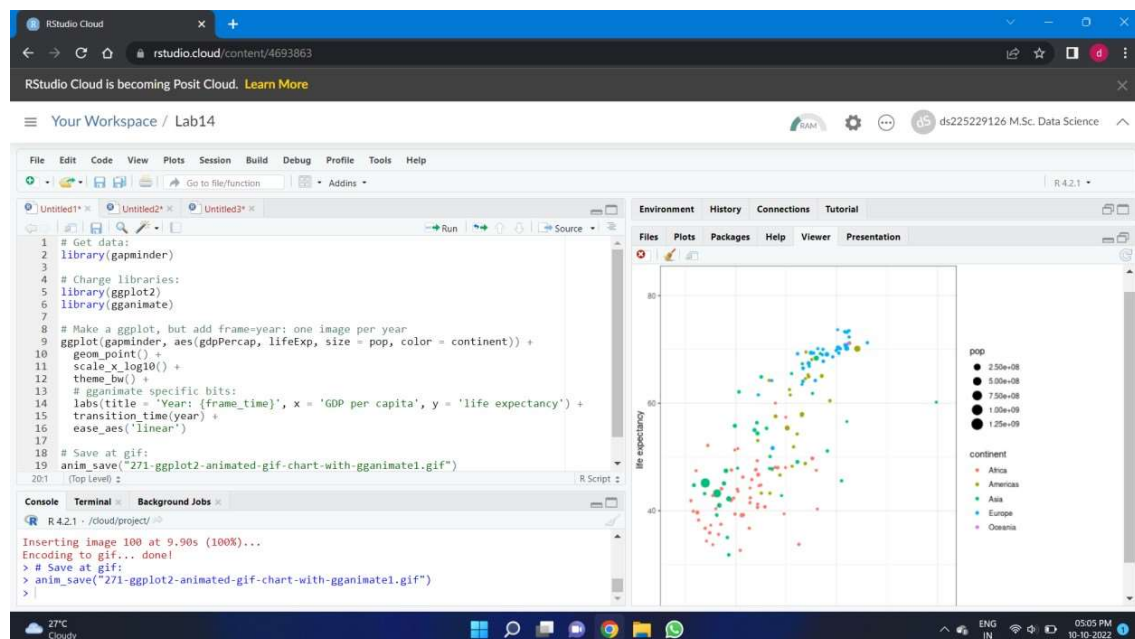

In this lab, you will use R language and gganimate package to plot various animated charts using the sample dataset available in R language itself.

**Question1.** Visualize animated bar chart, line chart and scatter plot using R and gganimate package.
